

Primary Care - Chronic Disease Management

Executive Sponsor: Milton Sussman

Project Sponsor: Paul Nyhof

Program/Dept: Primary Care

Project Manager: Linda Coote

Start Date: January 2005

Finish Date: January 2007

Congestive Heart Failure has been selected as the focus of this project to demonstrate the use of health contact center technology in the management of clients with chronic diseases. Partnerships with urban (VGH area) and rural (Portage la Prairie) family physician groups have been established. This project has received funding from the Federal Primary Health Transition Fund. The current infrastructure at Health Links-Info Sante will be utilized and close working relationships with the WRHA, Central RHA, Misericordia Health Center and Home Care will be essential to the success of this project.
