

## **Program of Integrated Managed Care of the Elderly (PRIME)**

**Executive Sponsor:** Real Cloutier

**Project Sponsor:** Jo-Ann Lapointe-McKenzie

**Program/Dept:** Bed Utilization

**Project Manager:** Frank Krupka

**Start Date:** December 2006

**Finish Date:** August 2008

The PRIME program is an innovative day program designed to provide an integrated and coordinated system of care targeted at seniors who are not functioning well in the community. It will offer a variety of health services including medical, rehabilitative, social and supportive services and use a case management approach to ensure access and coordination. The point of entry for clients will be through the existing community intake processes. The PRIME program will be located in the South Pavilion of the Deer Lodge Centre.

The Project goal is to develop and deliver plans necessary to support the program's timely implementation. The Project will execute these plans and coordinate and integrate the deliverables of other key stakeholders to ensure timely implementation.
