

Regional Tuberculosis Service Project

Executive Sponsor: Milton Sussman

Project Sponsor: Dr. Margaret Fast

Program/Dept: Public Health

Senior Analyst: Reid McMurphy

Start Date: March 2007

Finish Date: November 2007

Management of adult TB cases in the Winnipeg Health Region has recently changed to support the transition of responsibility for care delivery from Provincial TB Control to the Region. The transition has been precipitated by a review of governance structure and an increase in the number of cases and contacts. These changes have necessitated a review of patient flow and a need to clarify processes and accountability.

The goal of the Regional Tuberculosis Service Project is to clarify and document the ideal process for client flow for adult TB cases. The redesigned process will be implemented on a select number of new cases to ensure it is effective and efficient in meeting the goals of tuberculosis management.
