**Start Date:** October 2009

**Finish Date:** April 2010

Seven Oaks General Hospital (SOGH), through the development of an effective discharge strategy, is working to optimize patient outcomes and ensure patients receive “the right care in the right place”. The goal is to develop an efficient, effective, integrated, coordinated, person centered approach to discharge planning at Seven Oaks General Hospital.

Key project deliverables include:

- The development of a set of discharge planning tools and processes.
- The introduction of the discharge tools and processes into Family Medicine 5U1-3.
- Evaluation of the discharge planning tools and processes.
