

## **Specialized Wheelchair System Process Review**

**Executive Sponsor:** Milton Sussman

**Project Sponsor:** Marlene Stern

**Program/Dept:** Allied Health/Rehab

**Project Manager:** Ryan McCormack

**Start Date:** January 2007

**Finish Date:** June 2007

In 2005, a review of the wheelchair funding and procurement process was performed to identify changes necessary to decrease the time and costs for supplying wheelchairs to Manitoba residents requiring complex seating. The project identified the "ideal" process and options for proceeding to implementation.

The project requires a process review to quantify the time elements of the wheelchair funding and procurement project from 2005, and to quantify the potential impacts of the options to provide confidence that the subsequent implementation will decrease timelines. The process identified in 2005 will be measured wherever possible, and the impacts of each option on the timeline will be estimated.
