

Winnipeg Integrated Services (WIS) Project

Executive Sponsor: Sharon Macdonald/Gerry Schmidt

Project Sponsor: Sharon Macdonald/CADs

Program/Dept: Community Health Services

Project Manager: Dan Haughey

Start Date: September 2005

Finish Date: February 2006

The goal of the WIS Project is to implement priority work packages from the previous WIS Initiative, which promote integrated service delivery and standardization of key planning and operational functions across Community Areas (CAs).

This includes:

- Development of processes that integrate with the planning/budgeting activities of the operating partners and guides health and social service planning, as well as business planning/budgeting
- Support for implementation of “front end” processes developed for Access River East to other Community Areas
- Development of program groupings consistent with the WIS approach that inform the organization of service delivery in the Community Areas
