

Thank you for your interest in the Knowledge Synthesis Platform's services. To help us better understand your needs, please complete and submit this form and supporting documentation to:
knowledge_synthesis@umanitoba.ca.

After reviewing your request, we will schedule an initial consultation meeting with you to discuss service options and cost estimates.

Part A: Contact information

A1) Project Leader

Name:

Position:

Institution(s):

Department or Unit:

Email:

Phone:

Please attach you CV CV attached.

A2) Team Members: if you are making this inquiry as part of a research team, please tell us about your team members / co-investigators (names, organization).

[Click here to enter text.](#)

Part B: Project Information

B1) What type(s) of knowledge synthesis would you like to discuss?

Please see attached brochure (or visit chimb.ca/knowledgesynthesis) for details on available products and services.

Systematic review (quantitative or qualitative)

Rapid review

Scoping review

Overview of systematic reviews (a synthesis of data found in multiple systematic reviews)

Evidence summary

Protocol development (for a systematic, scoping or rapid review)

Search strategy development

Training: systematic review methodology

Other, please describe: [Click here to enter text.](#)

B2) Do you have funding for this project?

No Yes Applied Requesting assistance to complete funding application.

If applicable, indicate:

Funding agency: [Click here to enter text.](#)

Funding period: [Click here to enter text.](#)

Funding amount: [Click here to enter text.](#)

B3) Do you or will you have personnel dedicated to this project? No Yes

If applicable, indicate the main role and time commitment for each individual:

[Click here to enter text.](#)

B4) Please briefly outline your timeline for the proposed Knowledge Synthesis project. (i.e. when would you like to receive a product or service from us?)

B5) What is the intended outcome of this project? (e.g. peer-reviewed publication, clinical guideline, report for policymakers)?

Part C: Project Details – For Reviews

C1) Briefly, what is the rationale for your project? (1 paragraph)

C2) What is your research question? (PICOSS format preferred: Population, Intervention/Exposure, Comparator, Outcomes, Settings, Study designs)

C3) Are you aware of any publications that would potentially meet the inclusion criteria for your review? If so, please provide citations for up to three examples.

C4) Are there existing systematic reviews that address your research question? If yes, please provide citations and describe what your proposed review will add.
