

ACCESS Transcona

Executive Sponsor: Milton Sussman

Project Sponsor: Deb Vanance

Program/Dept: Primary Care

Project Manager: Eleanor Suderman

Start Date: May 2006

Finish Date: August 2006

ACCESS Transcona is scheduled to open on July 17, 2006 with a new primary care clinic. The opportunity exists with this opening to build upon lessons learned in the implementation of Access River East. Processes that have worked well will be adopted. To maximize clinic functioning, additional new processes and guidelines are required. The goals of this project are to:

- Plan and coordinate a safe opening of the new primary care clinic at ACCESS Transcona
- Develop the framework and key components of a operations binder for primary care clinics
- Develop the processes for ideal client flow through the clinic, from intake to discharge
