

Communication of Emergency Department Information to Primary Care Providers

Executive Sponsor: Milton Sussman/Ray Racette

Project Sponsor: Kim Morrison

Program/Dept: Primary Care

Project Manager: Frank Krupka

Start Date: October 2007

Finish Date: TBD

Recent consultation with Primary Care providers resulted in the identification of the timely receipt of patient information upon discharge from an Emergency Department as an issue affecting continuity of care.

The Primary Care project is initiated to develop and implement a process that enables the sharing of patient health information with Primary Care providers upon discharge from Emergency Departments and the Pan Am Clinic Urgent Care Department.
