

Diabetes Project

Executive Sponsor: Jan Currie

Project Sponsor: Judy Kaprowy/Marg Kozlowski

Program/Dept: Medicine Program

Project Manager: Rose Dziadekwich

Start Date: November 2006

Finish Date: November 2007

Significant issues related to diabetes care and service delivery within the WRHA have been identified including multiple service delivery models, limited access to services, lack of standardized educational services and lack of clarity in multidisciplinary team members roles. The goal of the Diabetes Project is to develop a standardized path for individuals diagnosed with diabetes to ensure timely and equitable access to care and education services consistent with best practices.
