

Grace Hospital Emergency Department Simulation Centre

Executive Sponsor: Real Cloutier

Project Sponsor: Ricardo Lobato de Faria

Program/Dept: Emergency

Project Manager: Daniel Zellman

Start Date: August 2008

Finish Date: July 2009

The Winnipeg Regional Health Authority's Emergency Department Simulation Centre will provide an interdisciplinary clinical learning resource for physicians and other health professionals in a state-of-the-art facility at the Grace General Hospital. It will be operated through a partnership between the University of Manitoba Faculty of Medicine and the Winnipeg Regional Health Authority, and will function as a satellite of the U of M's Clinical Learning & Simulation Facility. It will provide an environment for interdisciplinary learning consistent with the emerging work on interdisciplinary professional education being coordinated by the University of Manitoba, and will also support continuing medical education for rural and foreign-trained physicians.
