

Infection Prevention & Control Regionalization

Executive Sponsor: Henry Tessman

Project Sponsor: Brenda Dyck

Program/Dept: Infection Prevention & Control

Project Manager: Daniel Zellman

Start Date: August 2008

Finish Date: June 2009

The goal of the Infection Prevention and Control (IP&C) Regionalization Project is to develop and implement an operational plan to regionalize all existing and new resources in the IP&C program.

The objectives of the project are to:

- Establish the WRHA as the employer of IP&C program staff;
- Consolidate IP&C program budgets into a single regional IP&C budget;
- Establish a single reporting relationship to the regional IP&C program; and
- Develop and implement a regional organizational and committee structure.
