

Neurointerventionalist Service Optimization Project (HSC)

Executive Sponsor: Brock Wright

Project Sponsor: Sandor Demeter, Rick Nason

Program/Dept: Surgery

Project Manager: Alanna Hinrichsen, Laurie Gosselin

Start Date: March 2010

Finish Date: November 2010

Neurointerventionalist services at the Health Sciences Centre feature Neuroradiology and Neurosurgery services, each operating under the auspices of the home program.

Neurointerventionalist services have expanded and evolved leading to role, reporting relationship, space, and utilization challenges.

With a focus on the patient experience, the project will redesign the service delivery and organizational model to optimize throughput and the efficient use of resources and space.
